Sub: Additions/alterations in General Pool Residential Accommodation

The undersigned is directed to state that under this Ministry's Office Memorandum (OM) No. 11014/22/90-W.3 dated 09 January, 1996 it has been provided that works of addition/alteration of non-structural nature can be carried out in General Pool residential quarters at the request of the occupants, with a view to providing facilities which are otherwise within the yardstick of facilities currently prescribed for the said types of quarters but were not provided at the time of original construction. Such additions/ alterations are carried out on payment of the stipulated percentage(s) of the estimated cost of providing the facility.

It is, however, necessary and equitable to provide the currently prescribed facilities in all Government residential quarters in a phased manner, keeping in view of the availability of funds and the fact that the provision of these facilities in occupied residential quarters may cause inconvenience to the occupants. It has accordingly been decided to provide the currently prescribed facilities on vacation of residential quarters. Fresh allotment of such quarters will ordinarily be made after provision of these facilities, unless the allottee agrees to accept the quarters without such facilities.

3. A list of permissible civil and electrical items/works of additions/ alterations is enclosed.
